

**REMARKS**

Applicants appreciate the indication that claims 1-3 and 6-12 would be allowable when the Section 112 rejection is eliminated and the informality in claim 6 corrected, and that claims 4 and 5 would also be allowable when the claims on which they were dependent were allowable. By the foregoing amendments, the reference to "parts" in claim 1 has been deleted, claim 12 has been revised to use standard chemical nomenclature, and the informality in claim 6 has been corrected.

New claims 19 – 23 are dependent on claim 6 and are therefore respectfully submitted to also be in allowable form.

In view of the above amendment, applicant believes the pending application is in condition for allowance.
